AI & Full-Stack Developer: I design reliable LLM and RAG applications and put them into production (an AI agent for insurers tested in real conditions, a B2B SaaS that replies to Google reviews). Based in Paris, available immediately.

PROFESSIONAL EXPERIENCE

AI & Full-Stack Developer

Jun – Sep 2026

Assurance Zen Dépannage

Stack: Mistral AI · RAG (Qdrant) · spaCy · Python · FastAPI · React · TypeScript · Playwright · Docker

- **Leakia project, built solo:** conversational AI agent that pre-diagnoses water leaks for insurers, from designing the business protocol to the PDF report.
- **Reliable architecture, “the model decides nothing”:** the 85-question protocol and the scoring (level, origin) run as code; the LLM writes, the code decides.
- **RAG and vision:** RAG pipeline on Qdrant fed with real anonymized reports (spaCy, GDPR), photo analysis with a vision model.
- **Quality, tested in real conditions:** 5,000+ automated tests, Playwright E2E suite run on every release, 286 protocol answers verified.

Full-Stack IAM Developer

Sep 2025 – Mar 2026

Nexus IA & Atos

Stack: Python · TypeScript · PostgreSQL · Docker · MidPoint · LDAP

- **Smart IAM gateway** across multiple targets: MidPoint 4.8, ApacheDS directory (LDAP) and Odoo, deployed with Docker.
- AI-assisted rules engine to automate account provisioning.
- Secure REST APIs ensuring interoperability between heterogeneous systems.

Full-Stack Developer

Apr – Jun 2025

Groupe ADP (Paris Airports)

Stack: Node.js · Pydantic · Mistral AI

- **OLGA project:** secure REST API for data exchange between systems.
- Mistral AI integration to automate business tasks, in an Agile/Scrum team.

Developer

Jul – Aug 2024

LISSI Laboratory (UPEC)

Stack: Flutter · Dart

- Cross-platform mobile app for AI-based medical data analysis.
- GDPR compliance, in collaboration with health professionals.

PROJECTS

AI Review Responder — B2B SaaS in production

aireviewresponder.dev

Python · FastAPI · React · PostgreSQL · Stripe · Docker · Groq

- AI-generated replies to Google reviews for restaurants, hotels and shops, in 6+ languages (Google Business Profile OAuth).
- Multi-tenant architecture, Telegram notifications, automatic publishing, CSV export.
- In production: Stripe subscriptions (3 plans, 14-day trial), latency < 200 ms.

Bank fraud detection

Python · FastAPI · scikit-learn · React · Docker

- Machine learning model served by an API in under 10 ms; JWT/2FA authentication, multilingual PWA.

SkyPredict — flight delay prediction

Python · XGBoost · LightGBM · CatBoost · SHAP

- 85% accuracy, SHAP explainability, deployed FastAPI API.

SKILLS

Languages

Python · TypeScript · JavaScript · SQL

Back end and front end

FastAPI · Django · Flask · Node.js · React · Flutter · Stripe

AI and data

LLMs (Mistral AI, OpenAI, Groq) · RAG · Embeddings · Qdrant · LangChain · Vision (Pixtral) · spaCy · scikit-learn · XGBoost · SHAP

Quality and DevOps

Playwright · Automated testing · Docker · CI/CD (GitHub Actions) · Linux · nginx

Databases

PostgreSQL · MongoDB · Supabase

Security and APIs

REST APIs · OAuth 2.0 · JWT · IAM (MidPoint, LDAP)

Basic knowledge

Java · Kubernetes · AWS · C++

EDUCATION

Bachelor's degree in Computer Science (BUT)

UPEC, Créteil · 2023–2026

French baccalaureate STI2D, digital systems (SIN)

Lycée A. Chérioux · 2021–2023

CERTIFICATES AND AWARDS

Oracle Cloud Infrastructure AI Foundations

Oracle course, via Coursera · May 2026

Fundamentals of Machine Learning for Healthcare

Stanford, via Coursera · July 2026

TOEIC Listening & Reading: 740/990

Listening 455 (B2 level) · June 2026

UPEC cybersecurity hackathon

4th place out of 40 teams

LANGUAGES

French C2, bilingual

Ukrainian native

Russian C2, bilingual

English good command · TOEIC 740
